The state of the s

Cure for the Small-Pox. The German Reformed Messenger has received a letter from a friend in China, in which it is state the inventor of an Email ?" - Ibid. ed a great discovery is reported to have been recontly made by a surgem of the English army in China, in the way of an effectual cure of smullpox. The mode of treatment is as follows: When the preceding fever is at its beight, and just before the cruntion appears, the chest is rubbed with croton oil and tartaric cintment. This causes the Houses, Lands, Tenements, &c whole of the eruption to appear on that part of the body, to the relief of the rest. It also secures a full and complete emption; and thus prevents The disease from attacking internal organs.
